

**MONITOUCH**
**Notice of Discontinuation of Spare Part for V810 Models**

Thank you very much for your continued patronage of Fuji Programmable Operator Interface - MONITOUCH. This is the notice of the discontinuation of the spare part that is used in V810 models with CCFL backlight. Please review the following information for details.

**1. Discontinued Spare Part**

Part Number : 104PW201  
 Description : Inverter unit used in V810 models with CCFL backlight.

Repair service that requires the above item is no longer available. We would suggest an upgrade to the V9 model. Please see below table for the applicable replacement models.

**2. Successor Models**

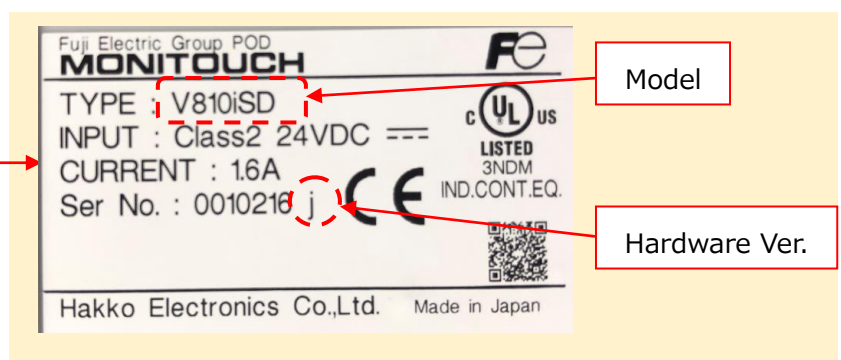

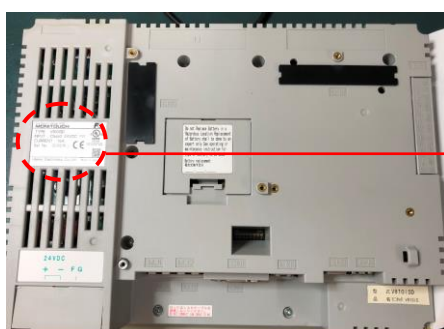

Original V8 Model	V9 Successor Model	Power	Display Resolution	Display Size
V810(i)S	V9100iS	100-240VAC	800 x 600 (SVGA)	10-inch
V810(i)SD	V9100iSD	24VDC	800 x 600 (SVGA)	
V810(i)T*	V9100iC	100-240VAC	640 x 480 (VGA)	
V810(i)TD*	V9100iCD	24VDC	640 x 480 (VGA)	
V810(i)C	V9100iC	100-240VAC	640 x 480 (VGA)	
V810(i)CD	V9100iCD	24VDC	640 x 480 (VGA)	

\*If an option unit "GU-xx" (video output/RGB input/RGB output/audio output) is used on V810(i)T/V810(i)TD, please select V9100iS/V9100iSD. Please note that the resolution changes from VGA to SVGA

**3. Identification by V8 Hardware Version**

HMI Model	Hardware version (CCFL backlight)	Hardware version (LED backlight)	Remarks
V810(i)S / (i)SD	[a] - [q]	[r] and later	Backlight in V8 was switched to LED in Jul - Aug, 2012 time period.
V810(i)T / (i)TD			
V810(i)C / (i)CD			

- For model and hardware version, please refer to the label on the back of the HMI unit.
- Products with hardware version [a] - [q] were manufactured in August 2012 and before.
